

Dominos (Identification)

Learning Standards:

- 6.A Demonstrate knowledge and use of numbers and their representations in a broad range of theoretical and practical settings.
- 6.B Investigate, represent and solve problems using number facts, operations (addition, subtraction, multiplication and division) and their properties, algorithms, and relationships.
- 6.C Compute and estimate using mental mathematics, paper-and-pencil methods, calculators and computers.

Student Objectives:

Identify the numbers one to twelve

Procedures:

1. Place a set of dominos face down.
2. Have students pick up one domino and count the number of dots on the domino
3. Create a model of the domino and write the word down.

Adaptions Ideas:

Use template to create dominos in Pages
Have matching pictures cards to match the answer
